

FIND YOUR SIZE

Every designer has their own size chart, so use the chart and steps below as a guideline for finding your recommended size for the Moineau Bratop.

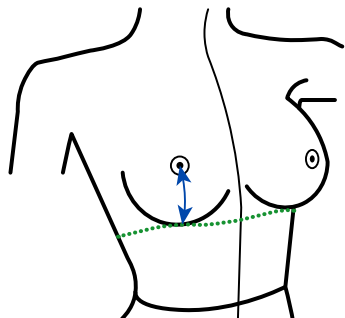

Do not rely on your RTW bra size.

Wear your best fitting bra to take the BCD. Measure from the **inframammary crease up to the centre of the nipple (blue line) or where your breast is fullest**, on both breasts (BCD). Wear your best fitting bra to take the BCD. If you have 2 different measurements, average them out.

Measure **directly under the breasts**, holding the tape measure horizontally to the floor for your band size (**green dotted line**).

Find the bandsize by looking in the right column.

Find the right size by combining your bandsize and the BCD in the left column
